A further point made by the hon, member who represents the Justices of the Peace was that it is all very well to make regulations but it is not altogether satisfactor unless there are inspectors to see

It is not very much good to ask the Government to provide inspectors unless th public play their part. If people instead of writing anonymous letters to newspapers would take the trouble to go round their premises and see that there are no empty bottles and sardire tins lying about with pools o stagnant water in them there would be far less cause for complaint This the public must do itself and not leave everything to the Government.
